Erlanger, KY

## **Tom Knox Joins Ancra's Engineering Department**

**Erlanger, KY.** — **Ancra International (Erlanger, KY)** is pleased to announce that Tom Knox is joining their Engineering team. Tom has over 35 years of experience in cargo control product specification, design, manufacturing and application engineering. He was previously with Ancra for twenty years before leaving to start up his own company in the cargo control industry. After selling his company he joined Kinedyne Corporation as Engineering Manager and worked in this capacity for the past ten years.

Tom has been instrumental in the development of products several patents over the years, some of which are still held by Ancra International. A graduate of UCLA School of Engineering, he has the technical background, creative ability and industry knowledge, and we look forward to the added strength he brings to our Engineering team.

Since 1969 Ancra International LLC, headquartered in Hawthorne, Calif., has been a world-class designer and manufacturer of restraint-related components and assemblies serving the commercial vehicle market and other industries. Each product is made from only the finest materials with attention given to every engineering detail. All component parts and materials are selected for performance and durability to offer our customers the most cost-effective and reliable solutions to their needs. In 1996 Ancra was acquired by The Heico Companies.
